

What to expect...

...when you receive your Immediate Choice Remediable Service Statement (RSS).

This guide applies to:

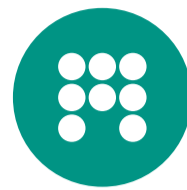

- **Pensioner members** who started to receive their pension between 1 April 2015 and 1 October 2023, and are subject to 2015 Remedy.

This is how long these steps will usually take

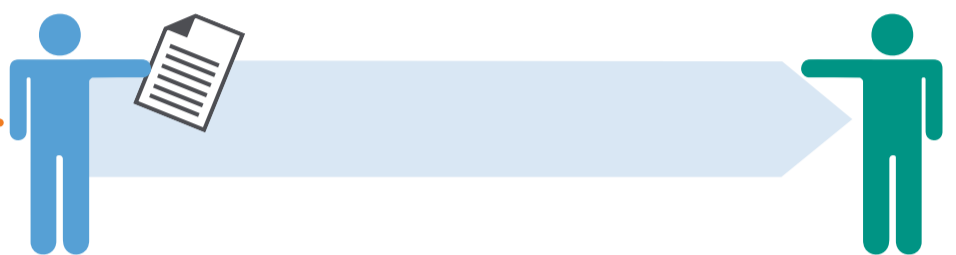

What the pension scheme will do

What you need to do

You are an impacted member

Between 31 Jan - 31 March 2025

We will start posting Immediate Choice RSS packs to impacted members.

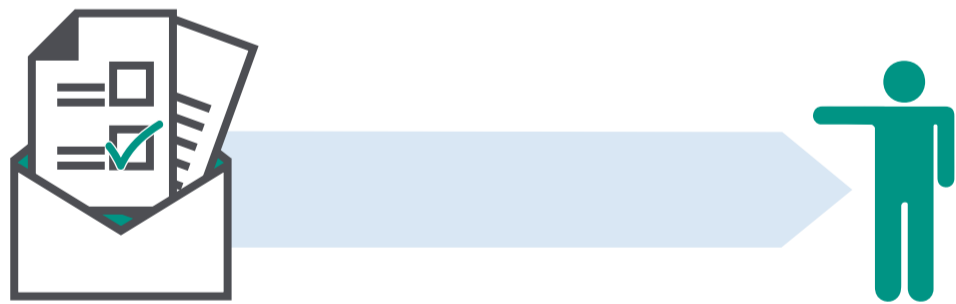

Your pack will detail your alternative pension benefit option(s) for the Remedy period.

Note: From January 2025, MyCSP will start issuing Immediate Choice Remediable Service Statements (RSS) to members impacted by 2015 Remedy. Various factors make these pension calculations more complex, and therefore we expect the exercise to take up to two years.

12 months from the date stated on your Immediate Choice RSS letter

You must submit your choice within the 12 months option window and we encourage members to make their choice as soon as possible. Your option period closing date is shown in your RSS pack. Each pack provides supporting information specific to your own circumstances and clearly lays out the alternative option(s) available to you.

Once we receive your choice, we will implement the selected option.

We have scheduled the first batch of implementations throughout the second half of 2025, where options have been returned early.

Note: if you decide to retain the benefits you are currently in receipt of, we will take no further action as no changes to benefit in payment would be required.

If you tapered into alpha during the Remedy period, you **must** make a choice. If you do not make a choice within the option window we will choose the most beneficial option for you.

If your option means you are due more monies, we will make arrangements to pay any additional pension or lump sum arrears plus interest due.

Please note

This is a basic end to end process guide. Immediate Choice Remediable Service Statement (RSS) packs are individual to the member and give further detail/breakdowns of any benefit complexities. Further detail can be found [here](#).

If you do not return your option form, your current benefits will remain in payment unchanged. (For those members who tapered into alpha during the Remedy period – 01/04/2015 to 31/03/2022, please note a choice will be required. If you do not make a choice within the option window, we will choose the most beneficial option for you).
